EDUCATION

Guru Tegh Bahadur Institute of Technology, GGSIPU, Delhi
*B.Tech - Information Technology - **CGPA** - **8.06***
Sri Guru Nanak Public School, Delhi
Class 12th - **85%** | Class 10th - **73%**

TECHNICAL SKILLS

Languages & Core: C++, JavaScript, Python | Data Structures & Algorithms, REST APIs, JWT, RBAC
Frontend & Backend: React.js, Next.js, Node.js, Express.js, Django, Flask
Databases & Tools: MongoDB, PostgreSQL, SQLite, Elasticsearch, Docker, Git, Postman, Vercel, Railway, Streamlit
DevOps: CI/CD Pipelines, Git, Docker, AWS, Linux, Jenkins, GitHub Labs

INTERNSHIP

Stirring Mind | FullStack Intern **FEB 2026 - ON GOING**

- Developed full-stack features including secure user authentication, advanced property search/filtering (by location, amenities, and GST eligibility), and a booking system for short-term coworking rentals.
- Implemented RESTful APIs with **Node.js** and **TypeScript** to manage real-time availability and listing statuses, ensuring data consistency between the **Next.js** frontend and the **MongoDB** backend.
- Optimized platform performance by integrating responsive UI components in **Next.js** and streamlining database queries, resulting in a seamless user experience for both property owners and business tenants.

Plutonic Services Pvt. Limited | Frontend Intern **SEP 2025 - FEB 2026**

- Assisted in developing and maintaining responsive user interfaces using **React.js, Next.js, Ant Design, and TailwindCSS**, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated with senior developers to integrate **REST APIs** and optimize application performance for a seamless user experience.
- Gained hands-on experience in **version control (Git/GitHub)** and agile workflows while contributing to real-world client projects.

PROJECTS

Flash Space | Internship Project **FEB 2026**

- **Tech Stack: Next.js, Node.js with TypeScript, and MongoDB.**
- Built a commercial property marketplace where businesses can list spaces, purchase virtual addresses for GST registration, and rent coworking spaces or meeting rooms via day-pass.
- Developed **Node.js/TypeScript** APIs to handle property listings, GST address verification, and real-time booking availability for coworking desks and meeting rooms.
- Created responsive **Next.js** frontend with advanced search filters, interactive booking calendars, and seamless checkout flow for day-pass reservations.

CA Cloud Desk | Internship Project **JAN 2026**

- **Tech Stack: Built the application using Next.js (React) for the frontend and Python (Django/Django REST Framework).**
- Developed a comprehensive practice management platform for Chartered Accountants, implementing features such as client management modules, compliance task tracking dashboards, and secure document upload/retrieval systems to streamline CA workflows.
- Engineered responsive UI components in **Next.js** for real-time deadline monitoring and client communication portals, integrating seamlessly with **Django REST APIs** to ensure efficient data synchronization and a smooth user experience.

Synova | Internship Project **NOV 2025**

- **Tech Stack: Built the application using Next.js (React) for the frontend and Python (Django/Django REST Framework).**
- Developed a responsive unlisted stock buy & sell platform (Synova) using Next.js, implementing secure authentication flows, dynamic stock listings, and seamless order placement UI for improved user experience.
- Optimized performance and usability through **component-based architecture, API caching, and responsive design**, collaborating closely with backend developers to deliver scalable and maintainable features.

ACHIEVEMENTS

- Completed **Udemy course** for skill development in fields of **Frontend Web Development and REST API handling** in 3 months, with a strong focus on the curriculum.
- Solved **300+ DSA problems** on coding blocks platform and LeetCode combined.

CERTIFICATIONS & COURSES

- Master Data Structures and Algorithm using C++ by Coding Blocks 350+ DSA questions **AUG 2025**
- IBM Skill Build Agentic AI: From Learning to Builder **AUG 2025**
- The Complete Full-Stack Web Development Bootcamp by Angela Yu **NOV 2024**
